Assessor H. Alva Jamison places his announcement for the nomination and reelection in The Press this week. Mr. Jamison has assessed the county three times and is too well acquainted with the people to require an introduction at our hands. He is encouraged to make the race for reelection because he considers that his experience qualifies him the better for the responsible duties of the position, and the fact that it is customary to give an official a second term when he has faithfully discharged the duties of the office. He refers to his record and invites a careful examination into his official conduct. Mr. Jamison desires to say that he appreciates, superlatively, the liberal support given him four years ago and will be thankful for any assistance rendered in the present campaign.

The Spring Drive

All winter long the foe has waited To fall upon us now.
He'll never rest till he is sated;
No matter when or how!
The spring awakes his latent ire
For what he thinks his wrongs.
From filth and slime or fetid mire
Will come his ghastly throngs.
From out their hiding places many,
Come now his lurking scouts;
Of Mercy's ways they know not any,
They feel no quails nor doubts.

Close at their heels lurk death and doom
And tears and wails of woe.
We'll be their sorry victims soon
Unless we strike a blow.

So rally round the flag, all
For we must do or die.
If we would save our country's fall,
We've got to swat the fly.
—Tom Terry in St. Louis Star.

Infallible Cure for Poison Ivy

Take the flowers or roots of common sweet elder, enough to make a strong tea, allow the infusion to boil several minutes; when cool, bathe the affected parts freely. Usually one application is sufficient, but severe cases may require two or three. The soothing effect of this remedy is immediate. The elder is common and well known, is usually found growing near branches, and is the same bush that furnishes our boys with pipes and popguns. I know the above remedy to be a certain cure from personal experience. The flowers may be gathered and dried in the sun, then seal in glass jars. They are useful in other cutaneous affections.—Mrs. L. E. B. in Southern Ruralist.

Resolutions of Respect

To the Board of Trustees of Will Mayfield College, convened in executive session at Marble Hill, Missouri, May 8, 1916.

We, your committee on Neurology, beg to submit the following report:

On the day of ascension, the disciples of Jesus wended their way back to the city from the inspiring scenes of that occasion. They were sad and dejected. Their anxious and comforter had departed, the source of their happiness and future hope was gone. Separation from those we love and upon whom we depend is a sore trial indeed. But the same Christ that had led them in sorrow had taught them to overcome grief.

We also have lost a great friend and helper, a benefactor and valuable spiritual adviser. But while we feel most acutely the loss of Mrs. W. H. Mayfield in our sorrow we are comforted by the thought that Heaven has gained another of our friends, thus adding its close to our spiritual hope.

This ideal Christian character has left to follow her so many good works which will always live, that the memory of this good woman will ever be kept green in our hearts. We have lost her advice, but she has taught us how to depend upon the great helper, her Lord and ours.

We therefore humbly submit to the call of our Heavenly Father, knowing that he doeth all things well.

We recommend that this report be recorded in the minutes of the Board of Trustees of Will Mayfield College and also a copy of the same be furnished to each of the following papers: MARION HILL PRESS, LUTESVILLE BANNER and Word and Way. We further recommend that a copy be sent to Dr. W. H. Mayfield Memorial Hospital, St. Louis, Mo. RUDOLPH L. LEMMON and A. F. HEDGECOCK, Committee.

PUZZLERS

Where can a man buy soap for his knee,
Or a key for a lock on his hair?
Can freckles be called an academy
Because there are pupils there?
In the green of his beard, what gems are
seen?
Who travels the length of his nose?
Can he use, when shingling the roof of
his mouth,
The nails on the end of his toes?
What does he raise from the slip of his
tongue?
Who plays on the drums of his ears?
And who can tell the east and style
Of the seat his stomach wears?
Can the croak of his elbow be sent to
jail?
And if so, what did it do?
How does he sharpen his shoulder-
blade?
I'll be hanged if I know—do you?
